PY GENRONE INTERMEDIATES PVT. LTD.

OUR VISION

Driven by a passion for innovation, PY GENRONE imagines a future where our cutting-edge intermediates and specialty chemicals empower sustainable and impactful solutions, propelling us to the forefront of the global market.

OUR MISSION

Through world-class engineering and chemical expertise, we craft top-quality specialty chemicals to serve our clients and cater for self-reliance for India and beyond.

PROUD SUPPORTERS OF ATMA NIRBHAR BHARAT

We as a company are aligned to support the principle 'Make in India, Make for World' of PM Shri Narendra Modi Ji. We firmly believe in the potential and capabilities of Indian businesses, and our products/services are designed to empower and strengthen companies that share this principle.

Our commitment to local sourcing, manufacturing, and talent ensures that we contribute to the growth of the Indian economy. By partnering with us, you not only gain access to high-quality products but also actively contribute to building a developing economy and a reliable partner for the long term.

PRODUCTS SHOWCASE

Introducing our line of speciality chemicals available for commercial production with a capacity 100 tonnes per annum. These are specifically designed and manufactured to meet the demands of businesses and consumers alike. With our commitment to excellence, you can trust that these products have undergone rigorous testing and adhere to the highest safety standards.

PRODUCTION CAPACITY: 100 TONS/ANNUM

BROMO-OTBN	BCFI
• 2-Cyano- • 4'-Bromomethylbiphenyl • CAS NO: 114772-54-2	• 2-Butyl • 4-Chloro • 5 Formyl Imidazole • CAS NO: 83857-96-9
• 2,6-DICHLOROPHENOL • CAS NO: 87-65-0	

HP-API & INTERMEDIATES

The growing antagonism between the West and China has also pushed the global pharma majors to source more from countries other than China.

India's emergence as the alternate source of bulk drugs has been quite remarkable and an opportunity we are equipped for.

CDMO BASED PARTNERSHIP

With our extensive expertise and resources, we can deliver exceptional results tailored to your specific requirements. Our company is equipped to either utilise technology provided by you or develop it in-house, ensuring flexibility and customization.

Our state-of-the-art facilities and experienced team guarantee the highest standards of quality, safety, and efficiency.

WE CAN SERVE YOU FOR

-  Oncology
-  Steroids
-  Anti-Bacterial
-  Pain-Management
-  Metabolic & many others

AT PYGIPL

PYGIPL has always been committed to innovation and continuous improvement. As such, we are constantly exploring new ways to improve our production processes and expand our product line to meet the diverse needs of various industries.

OUR WORKING METHODOLOGY

Market Demand

- Deep Dive
- Customer Needs
- Competitive Landscape

Industry Gap

- Problem Identification
- Value Proposition
- Uniqueness

R&D -Process & Tech Validation:

- Research Activities
- Technology Focus
- Intellectual Property

Pilot Plant -Kilo Scale Batch

- Proof of Concept
- Process Optimization
- Data Collection

Process Engineering

- Scaling Up
- Equipment Sourcing & Design
- Safety & Regulatory Compliance

Commercial Plant/Batch Set-up:

- Production Capacity
- Quality Control & Assurance
- Distribution & Supply Chain

Our Future Interests Include : SYNTHETIC CHEMICALS

AROMATICS:
FLAVOURS & FRAGRANCES

SURFACTANTS

POLYMER ADDITIVES

CORPORATE OFFICE :

#610, Nilamber Triumph, Nilamber Circle, Gotri-Vasna road,
Vadodara 390021, Gujarat (India)

WORKS :

Plot no. C-74, Road #25, Sayakha GIDC,
Bharuch, 392140, Gujarat (India)
